

REMARKS

Consideration of the application as amended above is respectfully requested.

In the specification, a new paragraph has been inserted on page 1, line 5, to provide the priority of the present application. This does not add new matter to the present application.

Claims 1 to 25 were pending in the International Application. Claims 1 to 25 have been canceled and new Claims 26 to 51 have been added. Currently, Claims 26 to 51 are pending in the present application.

New Claims 26 to 30 find support in original Claims 1 to 5, respectively. Claims 31 to 43 depend from base Claim 26, but otherwise find support in original Claims 6 to 18, respectively (which were multiply-dependent.) New Claim 44 finds support in originally filed Claims 6 to 12, 17, and 18. New Claim 45 finds support in original Claims 6 to 10, 13, 14, 17, and 18. New Claim 46 finds support in Claims 6 to 12 and 15 to 18. New Claims 47, 48, and 49, differ from original Claims 19, 20, and 21 in that they depend from base Claim 26, and portions of the chemical names have been italicized, in accordance with generally accepted chemical nomenclature. New Claim 50 finds support in original claim 23. New Claim 51 finds support in original claims 24 and 25.

These claims are fully supported by the specification and original claims and do not add new matter to the present application.

Applicants respectfully contend that the application is allowable, and a favorable response from the Examiner is earnestly solicited.

Respectfully submitted,

By

  
Catherine D. Fitch, Reg. No. 36,502
